THE QUEEN'S JUBILEE FUND

OF THE

ROYAL IRISH CONSTABULARY.

Founded by the Force in 1887-8 to commemorate the Golden Jubilee of the Reign of Her Majesty Queen Victoria.

THIS charitable Fund was founded by the Royal Irish Constabulary in commemoration of the Fiftieth Year of the Reign of Her late Majesty Queen Victoria. Its object is to assist, so far as the annual income will admit, *necessitous Orphans* of Members of the Force, serving or retired, who were Subscribers to the Fund as defined by the Rules. It is also permitted to assist, from a *temporary* Subsidiary Fund, a small number of *destitute* aged Widows and *destitute* aged unmarried Daughters of late Members of the Force, but vacancies in the number arising through death, or otherwise, will not be filled.

372 Orphans and 11 aged Widows and aged unmarried Daughters are at present assisted, at an annual expenditure, exclusive of working expenses, of £2,506 and £44 respectively. The children are left in charge of their mothers, other relatives, or guardians, or placed in orphanages according to their religious belief.

The capital of the Fund consists of £20,000 Government and Corporation Stocks. The income from all sources is over £2,000 per annum.

Donations will be gratefully received by BRIGADIER GENERAL SIR J. A. BYRNE, K.B.E., Inspector-General, or by any other Member of the Force.

The Committee of Management meets at Depot in April and October of each year to consider applications for aid.

Applications for assistance from the Fund should *not* be addressed to the Inspector-General, but should be forwarded, *through the local Officers of the Force*, to The Secretary, Queen's Jubilee Fund, Royal Irish Constabulary Depot, Phoenix Park, Dublin. Postage should be prepaid.

N.B.—The Resident Head Constable, R.I.C. Office, Dublin Castle, is the Local Secretary who, under Rule 8, Sec. II., receives the half-yearly Subscriptions of Pensioners who are paid at H.M. Paymaster-General's Office, Dublin Castle.

VII. Cadets will be appointed to the rank of District Inspector, as vacancies offer, according to their standing, proficiency, and conduct.

VIII. But Cadets, being only in a state of probation, will not be considered as permanently attached to the Force, until they attain the rank of District Inspector, and they are clearly to understand that if, in the interim, His Excellency the Lord Lieutenant should be pleased to dispense with their services, in consequence either of unfavourable reports received of their conduct or proficiency while at the Depot or of their character and position previous to their joining it, they are not to expect or require any reason to be assigned for their removal from the establishment, on which account it will not be *obligatory* on a Cadet to purchase uniform, or to incur any other expense consequent on his belonging to the Force.

By Command of the Lord Lieutenant.

JOSEPH A. BYRNE, *Inspector-General*.

* In Latin the obligatory tests consist of translation into English; exercises in Composition are reserved for the optional portion.

In French the qualifying tests consist of translation of French into English, of English into French dictation, and a moderate proficiency in speaking French.

NOTE.—Owing to the general interruption of academic studies during the war, the system of competitive examination for Cadetships in the Royal Irish Constabulary indicated in the foregoing Regulations has been suspended. Until further notice Candidates for Cadetships will be selected under special Regulations, copies of which can be obtained on application to the Inspector-General, R.I.C. Office, Dublin Castle.

PENSION RATES.

A man when he has completed 15 years' service is entitled to one-fiftieth of his annual Pay for every completed year of service until he reaches 20 years' service. From 21 years to 24 years he is entitled to two-fiftieths for each of these years, and at 25 years' service he is entitled to thirty-fiftieths of his annual Pay. For every completed year of service above 25 years there is an addition of one-fiftieth, up to a maximum of two-thirds of annual pay. He is entitled to retire on pension, on his own application, when he has completed 30 years' service, and is 50 years of age.

If injured in the execution of his duty, a man can be granted a special pension proportional to the injuries received. The widows of men of upwards of 5 years' service whose marriage is in accordance with the regulations of the Force, are granted pensions, which are continued so long as they remain unmarried, and in certain circumstances yearly allowances or gratuities are granted to children under 15 years of age.

In Ireland, application to join the Constabulary should be made through the local Officers. No man should present himself for approval at the R. I. Constabulary Depot until he receives an order from the Commandant. Candidates, to prevent as far as possible disappointment to themselves, should be medically examined before leaving their homes as to their fitness for Police service; but it is to be clearly understood that they must be finally examined and approved by the Surgeon of this Force upon their arrival at the Depot. *No Candidate will be admitted who has not been re-vaccinated.*

Outside Ireland, application should be made to "The Commandant, R. I. Constabulary Depot, Phoenix Park, Dublin," and it should state the exact age, height, and chest measurement of the Candidate, also what has been his usual employment. It should be accompanied by testimonials from Magistrates or other gentlemen of position, or from the Chief Constables of Counties or large towns; a Registrar's Certificate of Birth, and a certificate of re-vaccination; also a certified specimen of the Candidate's writing to dictation and arithmetic, as prescribed under "Qualifications." The examination to be carried out and certified, if possible, by the local Chief Officer of Police.

Candidates will be called to meet the requirements of the Force. No application to have a Candidate called specially can receive attention.

WATCHES
JEWELLERY, &c.

W. E. WATTS,

WATCHMAKER and
GOLDSMITH,

25, St. Peter's Street, DERBY.

TELEGRAMS: "WATTS, JEWELLER, DERBY."

TELEPHONE NO. 524.

25, St. Peter's Street, DERBY.

Owing to the continual increasing cost of production of all classes of our goods, we have for some time been compelled to cancel all Price Lists; moreover a number of our special lines could not be produced. During the war the entire trade was almost depleted of workpeople, the men who were not called up for military service being employed on munition work, their skill in the construction and use of fine machinery and making of small delicate parts being invaluable. The vast majority of these men are *not returning* to their original trade but are staying on at the engineering, the work being more simple and possibly more remunerative. Also, unfortunately many men who left the trade to join H.M. Forces will not return.

The cost of gold is greatly increased, silver is considerably more than double its former price, the cost of all materials has increased enormously, and wages are phenomenal, for example from £10 to £20 per week has recently been offered by advertisement for jewel setters.

The following pages enumerate a number of special watches which we particularly recommend as being of the best quality and value to-day procurable, and they will compare favourably with those offered by any other firm. In respect to jewellery we have inaugurated a new system by which assortments of any class of goods are sent to customers, from which a selection can probably be made. In this manner intending purchasers can see the actual goods before purchasing, and it will enable us to give all customers full advantage of any fall in prices which may from time to time be possible.

These parcels are sent out on the distinct understanding that the goods (excepting the article selected) will be returned immediately per registered post, and an official receipt for the parcel obtained at the post office.

At present net prices are quoted in all cases, and no discount whatever can be allowed.

Our goods, excepting Wedding Rings and Gold Chains, will continue to be supplied on our usual terms of deferred payments to Officials and Employees in the various Departments of H.M. Government throughout the United Kingdom, also to former approved Customers.

REPAIRS.—Watch and Jewellery repairs will be completed as speedily as possible, but delay in some cases must inevitably occur for the reasons explained above, and the cost of completing repairs is at present quite double the pre-war prices.

Assuring you of our best services at all times.

We are, yours faithfully,

N.B.—Owing to difficulties of Manufacturing conditions, the right is reserved to alter the price of any article in this List without notice, although a further increase is not anticipated.

At present we are unable to quote a price for this watch, which has been supplied to members of the Royal Irish

Constabulary for about thirty years, neither can we undertake to execute orders during the present year.

The men who made these fine hand-finished Watches are not now in the trade, consequently the "Consul" English Levers cannot at present be produced.

The "Consular" Lever is specially designed and constructed for the use of members of the Royal Irish Constabulary, and is guaranteed to be superior to the watches supplied at £ by other firms. It has an English Lever movement of the highest grade, hand-finished throughout; polished pivots, fusee and chain, extra jewelled, chronometer balance, by which the atmospheric changes are compensated; sprung above, by a new and special arrangement of the hairspring and curb pins, the former cannot be displaced by a violent blow or fall, neither can its adjustment be interfered with in the periodical cleaning, etc. The entire movement is protected by a dustproof cap. The cases are Silver Hall-marked of exceptional weight and strength, and so constructed as to occupy the least possible space in the tunic.

N.B.—The "Consul" English Lever Watch described above, whilst a very fine timekeeper and beautifully finished, was constructed on the old-fashioned key-wind principle which has become practically obsolete. We specially recommend the high-grade Keyless Watches enumerated on other pages, the mechanism is perfectly constructed, being practically indestructible, not so liable to get out of order as the key-wind mechanism, they are far more convenient in use and the cases can be more perfectly fitted so that they are dust and damp-proof, also it not being necessary to open the cases for winding or setting to time, they wear far longer and fit better after being in use many years (see Keyless "Consul," page 4).

At present we are unable to quote a price for this watch, which has been supplied to members of H.M. Coastguard Service for about thirty years, neither can we undertake to execute orders during the present year.

The men who made these fine hand-finished watches are not now in the trade; consequently the "MONARCH" English Levers cannot at present be produced.

The silver "MONARCH" English Lever is the finest key-wind watch in the world, and has been specially designed for the use of Government Employees and others subject to violent physical exercise, rapid and continual changes of climate, and prolonged absence in countries where watch repairs and cleaning cannot be effected.

SPECIFICATION. The "MONARCH" Silver Lever is English made throughout and hand finished. The movement is constructed of the finest materials procurable, and is fitted with an improved dead beat lever escapement and a real chronometer balance by which the atmospheric changes are compensated; fusee and chain with maintaining power. Thirteen jewels, and by a special arrangement of the curb pins the hair spring cannot be displaced by a blow or fall. The entire movement is enclosed in a dust-proof cap, and fitted in heavy but compact English hall-marked silver cases. Gold or steel hands as preferred. Each watch is scientifically adjusted and timed to the greatest exactitude, under varied conditions of temperature and position, before being sent out. Every "MONARCH" Lever is forwarded per post securely packed and complete with warranty for 50 years.

N.B.—The "MONARCH" English Lever watch described above, whilst a very fine timekeeper and beautifully finished, was constructed on the old-fashioned key-wind principle which has become practically obsolete. We specially recommend the high grade Keyless Watches enumerated on other pages, the mechanism is perfectly constructed, being practically indestructible and not so liable to get out of order as the key-wind mechanism, they are far more convenient in use, and the cases can be more perfectly fitted so that they are dust and damp proof, also it not being necessary to open the cases for winding or setting to time, they wear far longer and fit better after being in use many years.

UPWARDS.

The prices of LADIES' WATCHES are also much higher than formerly, but at the time of going to press there are indications that somewhat lower prices may prevail in the immediate future.

Or if necessary we may be able to send an assortment.

DRESS & ENGAGEMENT RINGS.

ALL EIGHTEEN-CARAT GOLD.

It is helpful to mention the number of style preferred, but at present exact patterns cannot always be supplied.

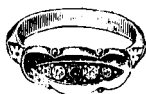

When the parcel is returned, an invoice is forwarded for the article selected and retained by our customer, and until this invoice is furnished, the goods remain our property in all cases.

Owing to the great increase in price of Gold, Diamonds, and all precious stones, and the enormous advance in workpeople's wages, we are compelled to cancel all Price Lists of our Jewellery. Also in view of the unsettled condition of manufacturing, we shall be unable to issue another Catalogue until values are more stable.

Therefore for the convenience of intending purchasers, small parcels of Rings, Brooches, Bracelets, Necklets, Pendants, or any other description of Jewellery will be forwarded on approval to any member of the R.I.C. per registered post, from which they will be able to make a selection.

Famous Among

R.I.C. MEN

5 Clau'e Terrace,

Co. Durham.

11th Oct. 1918

1A, Warne St.
Fleur de Lys
Via Cardiff

Dear Sir,

I beg to acknowledge the safe receipt of the Watch. This being my first purchase from your firm I must compliment you on your straightforward methods of business. One is very cautious about that. I can place every confidence in your Firm for honourable dealings and absolute value for money

The "**AJAX VERACITY**" is a very large, strong, keyless Gent's watch, with extra bold dial, which can be seen very clearly under all conditions. The **AJAX VERACITY** is the ideal watch for **R.I.C. MEN** who require a dirt and grease proof watch—it is filled with hardened polished zates, hard as steel, white as silver—but ten times as durable, which will wear 20 years, the price is only 45/-, the cases screw on back and front, absolutely dirt and dust-proof—a fine jewelled watch for R.I.C. men and those who must have correct time. Specially adjusted Lever movement, keeps accurate time in any climate, and stands any amount of rough wear and knocking about.

Mr. J. Masters.

Dear Sir,

I beg to acknowledge with thanks the receipt of old watch. Very pleased to inform you that the watch you sent me has given every satisfaction as all the other watches I have received from you have done. I must say I have never worn better watches. I can always depend on the right time.

Wishing your Firm the best of luck.

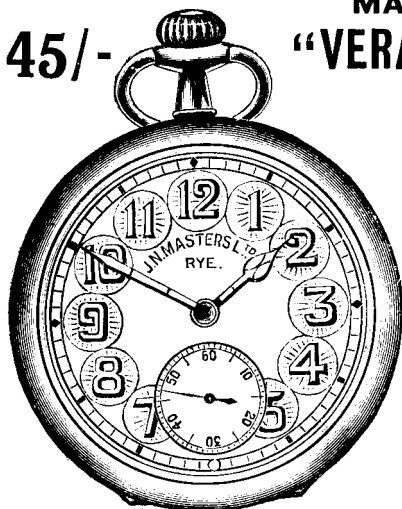

I am Sir,
Yours faithfully
M. S. MORGAN

I remain,
Yours faithfully,
